

In for the long haul.

[www.titandecks.co.nz](http://www.titandecks.co.nz)

Titan aluminium truck decks are designed and manufactured in New Zealand by McKechnie Aluminium. We have been manufacturing high quality aluminium products in New Plymouth since 1952. Other McKechnie Aluminium products include **ALCO** Aluminium Ladders, **Tiler's Mate** tiling products, **UBE Blind System** and **OPEN Windows and Doors**.

#### DESIGN

Titan aluminium truck decks are designed to meet stringent standards for strength and durability as well as being aesthetically pleasing.

#### QUALITY

Titan truck decks are built in a world class manufacturing facility, conforming with ISO 9001 international quality standards. McKechnie Aluminium has total control of the manufacturing process from alloy metallurgy, casting, extrusion, machining, fabrication and assembly. This close control ensures a high quality product

#### ENVIRONMENT

Titan truck decks are manufactured from 100% recyclable materials. The manufacturing facility continues to pay close attention to the immediate environment with native bush planting, ground and storm water protection and clean air discharge.
